FOR IMMEDIATE RELEASE  
Boise, ID

Cornerstone Design, a professional interior design consulting firm, is pleased to announce that one of its recent green projects received a Boise Building Excellence Award in the Best Green Building Project category by the City of Boise. Cornerstone Design worked with the client to create a green remodel plan for Thornton Oliver Keller's existing office space in downtown Boise, as well as acting as the interior design consultant. Project requirements included standards for Energy Efficiency, Indoor Air Quality, Construction Waste Management, Materials and Resources – 25% or greater recycled content, FSC-certified wood, local and regional suppliers, fabricators and installers, and Innovation. Energy savings being tracked by the client show a 20% reduction in energy costs for this project.

For further information and project details / photos, please contact Suzie Hall, ASID, LEED AP, at [suzie@cornerstoneinteriordesign.com](mailto:suzie@cornerstoneinteriordesign.com).
